**Proposed Recreation Actions:**

- Construct 5-10 new picnic tables with shade structures at this site.
- As a component of the I&E Program, provide new roadside directional signs for easier locating of this site.
- Provide a new sandy beach and swimming area.
- Provide a new vault toilet building.
- Provide a new swimming buoy approximately 100-200 feet from the shoreline.

This drawing is a conceptual exhibit of a proposed resource action developed during the relicensing of the Oroville Facilities. The disposition and specific technical detail of the completed project will depend on necessary engineering and environmental analyses, associated permitting, and any required regulatory review.

**Proposed Recreation Actions:**

- Revegetate disturbed areas with native arid landscaping for shade and aesthetics.
- As a component of the I&E Program, provide additional roadside directional signs for easier locating of sites.
- Improve access roads with gravel.
- Upgrade existing gravel boat ramp to concrete, with paved parking (scheduled 2006 or 2007).

North

- North of the Outlet Channel, establish designated hardened tent/RV campsites (no hookups) with picnic tables and gravel spurs with vehicle barriers. (number of new sites developed to be based on monitored demand, but not to exceed 40-acre area); 20 new campsites will be provided initially.
- South of Outlet Channel, designate a day use area near the river; install 5-10 picnic tables and arid native landscaping.
- Provide increased visitor management and enforcement in the OWA; enforce fishing and other use restrictions.
- Provide additional vault toilet buildings if and when needed, based on future use levels.

#### Proposed Recreation Actions:

- Provide additional trash receptacles and signage at public access points and provide additional trash pickup.
- Post both regulatory and educational signs detailing illegal fishing practices and consequences for non-compliance.
- Develop and implement an OWA Management Plan.
- Provide adequate visitor management and law enforcement, particularly at peak use periods.
- Locate and operate 2 new ADA-accessible Watchable Wildlife sites within the OWA (location to be determined) that have gravel parking, ADA-accessible trail access, and interpretive signage.
- Enforce a boating speed limit of 5 mph on the Thermalito Afterbay north of SR 162; provide speed limit signs, buoys, and other measures as needed; enforcement to be the responsibility of the licensee through coordination with local law enforcement as appropriate.
- Pursue administrative channels to amend/remove 5 mph speed limits on Afterbay south of SR 162.
